Сводка

Imagine walking onto a fast-moving drug product manufacturing site where your leadership directly protects people, operations, and patients—every single day. You'll be the on-site Health, Safety and Environment leader in Morrisville, setting the standard for an injury-free workplace by strengthening controls, coaching leaders, and shaping a culture where safety and quality are inseparable. You'll partner with site leadership, operations, and technical teams to ensure robust compliance across the full lifecycle—from raw materials through finished product and responsible waste management—while confidently guiding construction and contractor activities in high-risk environments. If you're energized by ownership, visible impact, and building teams that continuously improve, this is your opportunity to help Novartis deliver reliably and responsibly starting on day one.

#LI-Onsite
Location: Morrisville, United States
Relocation Support: Yes

About the Role

Key Responsibilities:

- Lead site Health, Safety and Environment strategy to achieve an injury-free, compliant manufacturing environment.
- Partner with site leadership to embed a strong safety culture using effective risk management controls.
- Ensure compliance with occupational safety, environmental, and emergency management regulations.
- Act as Health, Safety and Environment subject matter expert across site operations.
- Oversee safety support for construction projects and contractor activities.
- Lead inspections, audits, and permit management activities.
- Develop and coach the site Health, Safety and Environment team.

The salary for this position is expected to range between \$138,600 and \$257,400 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.

Essential Requirements:

- Bachelor's degree in health and safety, engineering, industrial hygiene, or related field.
- Minimum 8 years' experience leading health, safety and environment programs in regulated manufacturing.
- Strong knowledge of occupational safety and environmental compliance requirements.
- Proven people leadership and culture-building capability.
- Experience working with regulatory authorities and inspections.
- Ability to influence senior leaders and cross-functional teams.
- Previous experience leading a Health, Safety and Environment department at a manufacturing site.

Desirable Requirements:

- Previous experience in the pharmaceutical industry
- Experience supporting large construction projects and contractor safety oversight.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives.
