Сводка

#LI-Onsite
Location: Indianapolis, IN, USA

NOTE: This is a rotating 12-hour night shift role. Shift hours will be 6 pm - 6 am.

Help reimagine cancer care by ensuring life-changing Radioligand Therapies reach patients safely, reliably, and without delay. In this night-shift role, you will be a critical link between precision oncology innovation and flawless execution—owning the flow, accuracy, and integrity of materials that power our Indianapolis isotope manufacturing site. By combining disciplined good manufacturing practice operations with a deep sense of purpose, you will directly support around-the-clock production that transforms breakthrough science into real-world impact for patients who need it most.

About the Role

Key Responsibilities

- Accurate and timely data entry for GxP documents and ERP transactions to ensure data integrity and regulatory compliance
- Coordinate shipping, receiving, storage, staging of materials, and the pickup and destruction of hazardous and non-hazardous waste
- Perform periodic inventory counts, reconcile discrepancies, and maintain optimal material levels across the manufacturing site
- Execute packaging and kitting activities with precise labeling to meet production schedules and courier requirements
- Inspect materials, labels, and documentation to ensure accuracy, completeness, and readiness for production and shipment
- Operate radiation detection equipment and warehouse vehicles while adhering to safety, environmental, and quality standards
- Support cross-functional initiatives including procedure development, training, and continuous improvement efforts

Essential Requirements

- High school diploma or General Educational Development certification required
- Minimum of two years of experience in warehousing, distribution, or manufacturing within a regulated industry
- Working knowledge of good manufacturing practice documentation and compliance standards
- Ability to work a flexible schedule, including night shifts, in support of a continuous twenty-four hour manufacturing operation
- Proficiency using Microsoft Office applications and computerized inventory or enterprise resource planning systems
- Capability to perform physical tasks, including lifting materials up to sixty pounds, in a warehouse or manufacturing setting

Desirable Requirements

- Hazardous shipping training
- Associate or bachelor's degree in business or a science-related field

The salary for this position is expected to range between \$85,400 and \$158,600 per year. The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors. Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards. US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.
