Сводка

Novartis has an exciting opportunity for a Team Leader, Data Enablement – Access & Reimbursement and this hands-on leader will drive data initiatives that optimize product access and reimbursement outcomes. Partnering closely with stakeholders, this role translates business needs into innovative, data-driven solutions and ensures precise, high-quality execution. You will collaborate across functions and with external vendors to deliver impactful insights and uphold excellence in delivery.

About the Role

Key Responsibilities:

- Lead end-to-end project planning, resourcing, and delivery with clear timelines and high-quality outcomes.
- Partner with stakeholders to translate business needs into actionable data strategies and solutions.
- Drive data enablement for access and reimbursement analytics across launches and lifecycle management.
- Design and implement innovative, value-driven data solutions with strong accuracy and compliance.
- Analyze payer policies and reimbursement trends to generate actionable insights and recommendations.
- Collaborate cross-functionally (NPS, Market Access, Commercial) to align and execute data strategies.
- Manage vendor relationships, including data acquisition, integration, and quality oversight.
- Proactively identify resource gaps, risks, and improvement opportunities to optimize delivery.
- Lead and develop a high-performing team, fostering collaboration and best practice sharing.
- Monitor impact of initiatives and communicate performance, insights, and continuous improvement actions.

Essential Requirements:

- Bachelor's degree in Engineering, Data Science, Business, Marketing, or a related field; advanced degree a plus.
- At least 9 years of experience in the pharmaceutical or healthcare industry, with focus in Patient Assistance Programs, Patient Services, Market Access, and data enablement.
- Demonstrated team leadership experience, with the ability to guide, support, and develop team members while working closely with cross-functional partners.
- Strong understanding of the patient journey, including consent management (HIPAA, TCPA), with experience supporting HUB and Specialty Pharmacy services.
- Hands-on experience in data analytics, reporting, and operational problem-solving, with the ability to turn insights into practical solutions.
- Solid analytical and technical skills, with experience working with complex data sets to inform decisions and improve performance.
- Experience with modern data tools and platforms (e.g., Databricks, Dataiku, SQL, Snowflake, AWS, AI tools such as Copilot), and familiarity with data management best practices.
- Strong project and operations management skills, including experience working in Agile and/or Waterfall environments (e.g., Scrum, Kanban), with the ability to manage multiple priorities in a fast-paced, collaborative, and global setting.

Desirable Requirements:

- Work experience in Market Access, Payer, and Channel strategy is highly desired.
- Strong data engineering skills are highly appreciated.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
