Сводка

PM Enablement Services Lead drives project management excellence through governance, standards, tools, reporting, and continuous improvement. The role owns the strategy and optimization of PM platforms, partners with business and technology stakeholders, leads capability development and change adoption, and drives AI-enabled innovation to deliver scalable PM enablement services and measurable business outcomes.

About the Role

Major Accountabilities

- Lead the strategy, roadmap, and delivery of PM Enablement platforms including SharePoint Online, PM Planner (Novartis internal tool), PMO Hub (Novartis internal tool), Jira, ServiceNow, and Microsoft 365-based solutions.
- Own the design, enhancement, and governance of SharePoint-based project management solutions, including modern sites, lists, libraries, workflows, access controls, and user experience improvements.
- Drive automation using Power Automate and Power Platform to streamline project intake, approvals, reporting, notifications, escalations, and operational workflows.
- Manage integrations across PM Planner (Novartis internal tool), Jira, ServiceNow, SharePoint, Power BI, and other enterprise platforms to enable seamless data flow and connected project delivery processes.
- Partner with business stakeholders, architects, developers, and vendors to translate PM Enablement needs into scalable digital solutions and product enhancements.
- Lead AI and GenAI enablement initiatives for project management, including use cases for planning, RAID tracking, reporting automation, knowledge management, and decision support.
- Ensure data quality, platform adoption, security compliance, governance adherence, and service performance across the PM Enablement technology ecosystem.
- Provide technical leadership for continuous improvement, innovation, training, user adoption, and executive reporting to improve project delivery effectiveness and stakeholder experience.

Minimum Requirements

- Bachelor's degree in Information Technology, Computer Science, Engineering, Business, Project Management, or a related discipline.
- 15+ years of experience in project management enablement, PMO platforms, digital transformation, IT service delivery, or enterprise technology solutions.
- Strong hands-on understanding of SharePoint Online, Microsoft 365, Power Automate, Power Platform, Planner, Teams, and related collaboration technologies.
- Experience working with Jira, ServiceNow, Power BI, PM Planner (Novartis internal tool), PMO Hub (Novartis internal tool), and project/portfolio management tools in an enterprise environment.
- Good understanding of system integrations, APIs, data flows, workflow automation, reporting architecture, and platform governance.
- Exposure to AI, GenAI, Copilot, intelligent automation, predictive analytics, or digital innovation initiatives in business or project management contexts.
- Proven ability to work with business stakeholders, technical teams, vendors, and senior leaders to deliver scalable solutions and measurable business outcomes.
- Strong communication, analytical thinking, product mindset, stakeholder management, and change leadership skills with the ability to drive adoption across global teams.
