Сводка

#LI-Hybrid
Location: Prague, Czech Republic

This role is based in Prague, Czech Republic. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

Network Security Engineering team is a global team working on delivery and deployment of network security solutions and services following design standards and according to business needs. The team works with 5+ security vendors and products to deliver security services for Novartis globally. The candidate will partner with Business and IT Stakeholders for demand analysis, solution proposal/evaluation and project delivery ensuring the stability and integrity of the delivered solutions.

You will be the Subject Matter Expert for NAC service built on Cisco ISE.

About the Role

Key Responsibilities

- Act as a subject matter expert for Cisco ISE and NAC service
- Manage security equipments and services including NAC, ISE, Firewalls, Proxies, VPN, and IPS
- Work on new projects and migrations related to network security services
- Collaborate closely with service lines and architecture to deliver PoC, pilots and successful implementation of new IT solutions
- Ensure services and products are fit for purpose, achieve the desired business value and impact, and adhere to technology standards, Security and Compliance policies and procedures
- Build/maintain comprehensive documentation as it relates network & Security topology, equipment, and configuration(s)
- Manage services/products lifecycle ensuring data availability, consistency and integrity
- Execute problem management and identification of root causes as well as sufficient prevention of recurrences
- Provide Level 4 support for problems identified with systems and network; and act as a partner for Level 3 and Level 4 Managed Services support technicians

Essential Requirements

- Strong understanding and experience with Cisco ISE and NAC services
- Strong understanding of network technologies, protocols, and connectivity solutions
- Experience with at least one of the major firewall vendors and/or SASE
- Ability to effectively communicate by phone, email or in person with technical and business teams
- Proven experience in network security engineering roles delivering projects within complex global environments
- Strong problem-solving and troubleshooting skills

Desirable Requirements

- Knowledge of Forescout platform. Experience applying artificial intelligence or advanced analytics to technology operations
- Knowledge of network automation tools and infrastructure-as-code methodologies.

Expected Annual Base Salary Range for role: 948,290.00 - 1,761,110.00 CZK

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

Read our brochure to learn more about our global total rewards offering: https://www.novartis.com/sites/novartis_com/files/novartis-life-handbook.pdf

Note: Benefits and compensation may vary by country and are subject to local legal requirements, including provisions of collective bargaining agreements where applicable. A full overview of your compensation package, including any relevant collective bargaining agreement details applicable to your role based on your employment location and Novartis employer entity, will be communicated separately to you during the application process.

Commitment to Diversity & Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Accessibility and accommodation:

Novartis is committed to working with and providing reasonable accommodation to all individuals. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to receive more detailed information about the essential functions of a position, please send an email to di.cz@novartis.com and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally.
