Сводка

The Governance Specialist plays a key role within Transformation & Governance by helping define how E&A operates, makes decisions, and engages with other areas. The role enables E&A to operate effectively and scale through clear collaboration models, streamlined processes, robust governance, and consistent delivery standards. By applying expertise in process optimization, organizational alignment, standards, and enablement, the specialist strengthens E&A's operational backbone and increases its impact across partner teams.

About the Role

Major Accountabilities

- Define and maintain collaboration frameworks, roles, responsibilities, and engagement models across Experience & Adoption (E&A) teams and partner functions.
- Design, document, and continuously improve standardized processes to ensure consistent and efficient delivery of E&A services.
- Establish and evolve operating models, including service-based engagement approaches, to support diverse business and stakeholder needs.
- Drive governance practices by defining decision rights, review forums, escalation mechanisms, and accountability structures.
- Create and manage centralized methodologies, templates, playbooks, standards, and reusable tools to support operational excellence.
- Translate E&A strategy into executable roadmaps, align priorities, and coordinate delivery and monitor progress against goals across teams and stakeholders.
- Define, monitor, and report on KPIs and success metrics to measure impact, inform decision-making, and drive continuous improvement.
- Lead enablement and capability-building initiatives, promoting best practices and fostering a user-centric, results-driven culture.

Minimum Requirements

- Bachelor's degree in Organizational Design, Business Administration, Program Management, or a related field.
- Proven experience designing and implementing operating models, governance frameworks, or business processes within complex, cross-functional organizations.
- Strong strategic planning and analytical skills, with the ability to convert business objectives into actionable programs and initiatives.
- Hands-on experience developing standards, templates, methodologies, and operational frameworks to support organizational consistency.
- Demonstrated ability to collaborate and influence across diverse stakeholder groups, including IT, service delivery, design, and research teams.
- Experience driving continuous improvement initiatives using data, insights, and user feedback to enhance effectiveness and scalability.
- Excellent communication, facilitation, and presentation skills, with the ability to simplify complex concepts for different audiences; fluent in English.
- Experience leading organizational, operational, or cultural transformation initiatives within large, matrixed environments.
