Сводка

As a Senior Expert Science & Technology (m/f/d), you will lead and manage analytical projects and lead or contribute to resolving challenges in analytical method development as part of a multidisciplinary project team. You will direct and carry out analytical project activities, contribute to global strategies and objectives, manage operational aspects of the laboratories in line with assigned responsibilities, and develop science and technology strategies

About the Role

Your key responsibilities:

- Design, plan, and coordinate analytical project activities in the development of biological medicines. Manage multiple tasks simultaneously and ensure customer needs are met.
- Lead analytical method development and provide scientific guidance to the analytical project team.
- Interpret results, evaluate data, and draw appropriate conclusions. Review and approve data, and critically evaluate analytical and experimental results generated by colleagues.
- Prepare scientific reports for internal and external partners and contribute to the preparation of regulatory documentation.
- Resolve complex problems within your area of responsibility.
- Actively contribute to budget preparation and resource planning within the project team, and manage project timelines.

What you will bring to the role:

- A university degree (PhD preferred) in pharmaceutical technology, biotechnology, biochemistry, chemical engineering, or another relevant scientific discipline.
- At least three years of professional experience, preferably in the pharmaceutical industry, biotechnology, or another relevant sector.
- The ability to collaborate effectively with others to achieve shared goals, communicate appropriately, and solve problems efficiently.
- The ability to grasp new concepts quickly and an enthusiasm for learning.
- Proficiency in English.
- Knowledge of digital technologies.
- With the selected candidate, we offer permanent employment with 6 months of probation period. Submit your application with your CV in both Slovenian and English.

Rewards:
At Novartis, we're committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Annual Base Salary Range for role:

Slovenia: €46,550.00 - 66,500.00 - 86,450.00 EUR Annual

The salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

In addition to your base salary, you will be eligible for benefits listed below:

· **Annual bonus for all employees:** 12% of annual base salary.

· **Holiday allowance:** In 2025 it amounted to €2,496 (net). For 2026 it amounts to €2,678.28 (net).
