## Сводка

Novartis US IM Content enablement team is looking for a Senior Analyst professional who will develop analytics solutions for Martech content enablement products and deliver analytical dashboards and insights as needed.

The Content Enablement Team vision is to enable a seamless ecosystem which makes finding, creating, managing, and publishing content a competitive advantage for Novartis.

This is to be achieved via below core objectives:

- Building the Next Generation Content Enablement analytics by creating an efficient content journey.
- Enabling reusability of content across Novartis.

This role will be critical in co-creating data-driven decision-making insights across the Content Enablement products and the broader Marketing organization. This role will also be a key executional partner in the daily operations of the team's data and reporting capabilities as well as the implementation of new analytics solutions, enabling Novartis' broader efforts to become a more operationally efficient and data-driven organization.

## About the Role

### Location – Hyderabad #LI Hybrid

Job Description

### Major Accountabilities

- *Dashboard & Data Solutions:* Lead the end-to-end design, development, and deployment of dashboards and data products, ensuring they meet the evolving needs of platform and product teams.
- Supports and Mentors team members in creating data insights
- Works with the Product Owner to align the report solution with the strategic vision
- *Technical Aspects:* Ensuring best practices in data modelling, visualization, and reporting.
- *Quality Assurance:* Ensure data validation, troubleshooting, and resolution of data issues to ensure accuracy and reliability of reporting solutions.
- *Continuous Improvement:* Implement opportunities to enhance data infrastructure, reporting processes, and user experience.
- *Documentation & Training:* Develop and maintain comprehensive documentation and partner with the change team to create training materials to support users and promote data literacy.
- *Collaboration:* Partner closely with the Product team to align data solutions with strategic objectives and drive adoption.
- *Operational Excellence:* Own and manage allocated Jira tickets related to data and reporting, maintaining clear tracking and communication of progress.

### Education and Experience

- Bachelor's or master's degree in information technologies, Data Analytics, or a related field
- English (Native-level) - Must be able to communicate and understand complex concepts clearly and concisely
- 4+ years of experience in a Data analytics role (e.g. Data Engineer) in a large corporate or regulated environment.
- Proven track record of designing and implementing dashboards and data solutions (Power BI expertise needed). Strong technical skills in data modeling, ETL, and data visualization.
- Tools expertise required – SQL, PowerBI, QlikSense, Snowflake.
- Experience using JIRA or similar systems. Should be able to generate insights based on data and visualization along with strong presentation and storytelling skills.
- A Strong communication and stakeholder management skills.
- Ability to drive cross-functional collaboration and operate effectively across cultures and geographies.
- Problem-solving mindset and critical thinking skills, with the ability to deliver under tight deadlines.
- Knowledge of content life cycle management.

### Skills Desired

- Agility, Analytical Thinking, Brand Awareness, Business Analytics, Cross-Functional Collaboration, Digital Marketing, Marketing Strategy, Media Campaigns, Sales, Stakeholder Engagement, Stakeholder Management, Strategic Marketing, Waterfall Model, Dashboard reporting (PowerBI, QlikSense), Agile ways of working.
