Internal job title: Associate Director DDIT FM&A Sol. Del. Financial Compliance

About the Role:
The Associate Director DDIT FM&A Solution Delivery - Financial Compliance is responsible for driving technology-enabled solutions supporting Finance, Financial Compliance and Digital Assurance.
The role acts as a key interface between Finance business stakeholders, DDIT teams, platform teams and delivery partners, translating business and compliance requirements into scalable digital solutions. The position will provide end-to-end ownership across solution delivery, project execution, stakeholder management, operational transition and continuous improvement.

About the Role

Key Responsibilities:

- Act as a trusted DDIT partner to Finance business owners and senior stakeholders.
- Translate business needs into actionable technology requirements and delivery plans.
- Lead end-to-end delivery of Finance and Financial Compliance digital solutions from requirements and solution design through implementation, testing, deployment and stabilization.
- Manage multiple initiatives across the Finance Digital Assurance portfolio, ensuring clear scope, priorities, dependencies, risks and delivery milestones.
- Coordinate business, functional, technical and external delivery teams to ensure successful implementation.
- Manage enhancement demand and contribute to resource, capacity and budget planning.
- Support technology-enabled automation and analytics opportunities that improve control effectiveness, monitoring and assurance.
- Work across technologies and platforms supporting the portfolio, particularly areas such as **Celonis, Power BI, SAP and enterprise data platforms**
- Partner with solution architects and platform teams to ensure solutions are scalable, maintainable and aligned with enterprise architecture.
- Manage cross-functional dependencies spanning Finance, DDIT, Security, Integration, Data and Compliance teams.
- Manage external vendors and implementation partners, including delivery quality, commitments, costs and outcomes.

Essential Requirements:

- 10+ years of experience in **IT/Digital solution delivery within Finance, Financial Reporting, Compliance, Audit or related enterprise functions**
- Bachelor's degree in Computer Science or Finance, or related discipline.
- Proven ability to manage complex, cross-functional technology initiatives.
- Strong understanding of enterprise Finance processes and systems, preferably including SAP.
- Experience with analytics, process mining, reporting or data platforms such as **Celonis and Power BI**.
- Understanding of **SOX/internal controls, IT controls or financial compliance** concepts.
- Experience coordinating business, technology, architecture, security and external partner teams.
- Strong project/program management and stakeholder-management capabilities.
- Ability to communicate effectively with both technical teams and senior business stakeholders.
- Strong analytical, problem-solving and decision-making skills.

Desirable requirements:

- Experience in a large multinational, regulated or highly controlled environment.
- Exposure to Finance transformation, process mining, continuous controls monitoring or digital assurance.
- Familiarity with Agile delivery and enterprise change/release processes.
- Experience working with global and geographically distributed teams.
- Experience managing vendors and delivery partners.

Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.
