To plan and lead Category initiatives for a clearly defined sub-category globally OR one category regionally OR all categories in one country OR multiple cross-divisional categories in one country; to develop the sub-category strategy as part of the wider Category Strategy; to lead proactive sourcing projects, specification definition and demand management, as well as manage sub-category-specific supplier performance and innovation activities.

The role provides high value procurement solutions to the business; supports third party vendor selection, vendor development, technology management and performance measurement activities. It ensures best-in-class delivery of external services and products, cost savings, and process improvements in close collaboration with the stakeholders in the business.

About the Role

Major Accountabilities

- Planning, organizing and managing projects considering priorities, resources, budgets, issues and constraints to achieve desired results; defining clear project scope and objectives; utilizing software and tools to plan, track and report status.
- Translate global divisional category strategy into global, divisional, subcategory strategy OR translate regional procurement strategy into country strategy and local implementation.
- Lead the implementation of sourcing plans for the category and deliver category savings targets following engagement in the target setting process. Directly control at a country level purchase with respect to supplier choice, timing and commercial conditions.
- Provide input into the overall Category strategy about segmentation and identification of key supplier relationships, lead business planning activities and ensure these projects are staffed and executed on a timely basis in line with the targeted goals.
- Manage strategic category supplier relationships and implement consistent key performance indicators for the category, ensuring that any supplier performance risks and issues are resolved on a timely basis to end user satisfaction.
- Executing the Source-to-Contract process including respective strategies, approaches and methods: Preparing and conducting fact-based negotiations. Adapting tactics from a broad portfolio of negotiation strategies to achieve results that support business and Procurement objectives.
- Achieving results by proactively building long-term, sustainable and effective relationships, understanding the stakeholder landscape and demonstrating intelligence across business structures and networks, jointly identifying the most cost-effective ways to deliver business objectives. Responsible for ensuring the right balance between business needs and Novartis' strategy.

Minimum Requirements

- 10 Years of experience in Procurement (end-to-end sourcing and contracting processes, supplier management)
- Strong project management and other leadership experience
- Stakeholder Management to CxO level
- Critical Negotiations.
- Industry/ Business Exposure.
- Cross Cultural Experience.
- Operations Management and Execution.
- **Skills:**
- Negotiating and Sourcing Acumen, Effective Communication with Top Management, Finance Management, Internal and External Stakeholder Management (Needs Analysis & Satisfaction Studies) Managing Resources and Data analysis
- **Languages:**
- Spanish, English and Portuguese (preferably)
